Part A. Enterprise Metadata and Data Classification

Industry Pillar	Financial Services (mutual fund distribution and investor servicing)
Target Enterprise Document Type	Mutual Fund Consolidated Account Statement (eCAS) with investor servicing guide
Regulatory Framework	SEBI Master Circular for Mutual Funds; SEBI directions on Consolidated Account Statements issued by depositories and Registrar and Transfer Agents; AMFI Code of Conduct for mutual fund distributors; Income-tax Act, 1961 (capital gains provisions)
Document Identification Code	AV-MF-ECAS-2026-0392
Classification Level	Strictly Confidential
Presenting Entity	AuraVance Digital FinTech Private Limited (CIN U65110MH2026PTC384152; PAN AAACF2026N), registered office: AuraVance Tower, Bandra Kurla Complex, Mumbai, Maharashtra 400051; AMFI-registered Mutual Fund Distributor ARN-147236 (illustrative). The statutory CAS is issued by the depositories and Registrar and Transfer Agents; the Company presents that data on its platform
Dispatch Channel and Frequency	Email and platform; monthly where a transaction occurred in the month, half-yearly (September and March) otherwise

Part B. Client Account Distribution Mapping and Identity Validation

Field	Value	Validation Status
Investor name	Meenakshi Raghavan Iyer	Matched with KYC register

Part C. Preliminary Operational Framework and Service Commitments

1. What a Consolidated Account Statement is. A single statement that consolidates every mutual fund folio and demat holding of an investor, combined on the basis of the PAN and the order of holders. Where units are held in demat mode, the depository issues it; otherwise the Registrar and Transfer Agent does. It shows each transaction in the period, opening and closing unit balances, the applicable NAV and the market value at the period end. A monthly statement is sent for any month with a financial transaction; otherwise a statement is sent half-yearly, in September and March.

2. Valuation and Masking. Units are valued at the closing NAV of the scheme on the last business day of the period. Cost value is the weighted-average acquisition cost and is for information only; it is not a substitute for the capital gains register in Part D. Only the last four characters of the PAN are shown. Stamp duty of 0.005 per cent applies to purchases; Securities Transaction Tax applies on redemption of equity-oriented units; tax is deducted at source on dividend income above INR 5,000 in a financial year.

3. Regular and Direct Plans; Distributor Commission Disclosure. The holdings below are Regular Plans, through which the AMC pays AuraVance a trail commission from the scheme's expense ratio (illustrative range 0.45 to 1.10 per cent of average assets per year, varying by scheme). A Direct Plan of the same scheme has no distributor commission and a lower expense ratio. AuraVance does not charge the investor a separate fee for these transactions, and the investor may move to a Direct Plan at any time by switching or redeeming and reinvesting, which may attract exit load and tax.

4. Service Standards. The table below sets the regulatory position against the commitments AuraVance Digital FinTech Private Limited makes to its investors. Customer care: 1800 000 2200; email care@auravance.aura.

Service	Regulatory or AMC Position	AuraVance Service Commitment
Order placement and NAV	NAV depends on the time of receipt at the AMC; cut-offs are in each Scheme Information Document	Order sent to the AMC within 15 minutes of submission before the cut-off; confirmation in the app and by email
Redemption proceeds	Paid by the AMC within 3 working days (Liquid Fund: 1 working day)	Tracks every redemption and escalates to the AMC after the second working day
Statement availability	Depository or RTA issues the CAS by the 7th day after a transaction month	Statement visible on the platform within 2 working days of receipt
Change of nomination, bank mandate or contact details	Processed by the AMC or RTA	Request lodged with the RTA within 1 working day of a complete request
Investor complaint	Complaints against an AMC or RTA go to SEBI SCORES	Acknowledged in 1 working day; resolved within 10 working days

Sample enterprise document prepared for RAG deployment. Figures are illustrative; replace with approved company data before production use.

Part E. Statutory Disclosures, Risk Framework and Audit Sign-Off

5. Capital Gains Rules Applied in This Statement. For equity-oriented schemes, units held for more than twelve months give long-term capital gains, taxed at 12.5 per cent on the gain above INR 1,25,000 in a financial year; units held for twelve months or less give short-term capital gains, taxed at 20 per cent. Gains on debt and liquid schemes acquired on or after 1 April 2023 are treated here as short-term capital gains taxed at the investor's slab rate. Surcharge and 4 per cent health and education cess are additional. Units are matched on a first-in-first-out (FIFO) basis. Confirm the position with a tax professional.

6. Mutual Fund Investment Risk Disclosure. Mutual fund investments are subject to market risks; read all scheme-related documents carefully. Past performance does not guarantee future returns. NAV may go up or down depending on factors affecting securities markets. Liquid and debt schemes are subject to interest-rate, credit and liquidity risk. Each scheme's Riskometer is available on the scheme page and is reviewed monthly.

7. Exit Load, Systematic Plans and Dividends. Exit load, if any, is charged per the Scheme Information Document in force on the date of the original purchase. SIP, SWP and STP instalments appear as separate transaction lines. Dividends under the Income Distribution cum Capital Withdrawal (IDCW) option, where chosen, appear as payout or reinvestment lines and are not part of the growth option holdings above.

8. Folio Integrity, KYC and Nomination. Every folio must carry a valid PAN, a KYC-validated status and a nomination or a signed opt-out declaration; folios without these may be frozen for debits until the requirement is met. Verify unit balances, NAV and masked identity details against your records and report any discrepancy to AuraVance or the AMC or RTA within 30 days of receipt, failing which the statement is taken as correct.

9. Reconciliation Controls. Before display and dispatch, AuraVance reconciles the data received from the depositories and RTAs with the portfolio on its platform: unit balances against the RTA records, NAV against the published AMFI NAV file for the date, and the valuation grid total against the sum of individual market values. Any variance above INR 1 triggers manual review. The statement is a password-protected PDF (PAN in capital letters followed by date of birth); investor data is used only to service the account and comply with law.
