AURAVANCE: FLEXI COMMERCIAL PROPERTY POLICY (STANDARD FIRE AND ALLIED PERILS)

Policy Wording, Schedule and Servicing Guide No. AV-GI-FCP-2026-0518 | Period of Insurance 01 October 2026 to 30 September 2027 | Issued at Pune

Part A. Enterprise Metadata and Data Classification

Industry Pillar	Insurance (distribution and policy servicing)
Target Enterprise Document Type	Flexi Commercial Property Policy (Standard Fire and Allied Perils / Special Perils wording) with sample policy schedule and servicing guide
Regulatory Framework	Insurance Act, 1938 (including Section 64UM on surveyors and loss assessors and Section 64VB on premium payment); IRDAI Act, 1999; IRDAI regulations on protection of policyholders' interests, on corporate agents and on claim settlement and grievance redressal timelines; Insurance Ombudsman Rules, 2017
Document Identification Code	AV-GI-FCP-2026-0518
Classification Level	Strictly Confidential
Distribution and Servicing Partner	AuraVance Digital FinTech Private Limited (CIN U65110MH2026PTC384152; PAN AAACF2026N), registered office: AuraVance Tower, Bandra Kurla Complex, Mumbai, Maharashtra 400051; IRDAI-registered Corporate Agent, registration CA 147 (illustrative). Helpline 1800 000 3300 (24x7); email claims@auravance.aura
Insurer (risk carrier)	Himavat General Insurance Company Limited (IRDAI Registration No. 147). The Insurer underwrites the risk and settles claims
Sample Policyholder	Narmada Agro Foods Private Limited, Survey No. 118, Chakan Industrial Belt, Pune, Maharashtra 410501 (illustrative customer)

Part B. Statutory Risk Management Structure for Commercial Assets

1. Insuring Clause. In consideration of the premium paid, Himavat General Insurance Company Limited (the Insurer) agrees to indemnify the Policyholder against loss of or damage to the property described in the Schedule, occurring during the Period of Insurance, by any peril listed in the Perils Grid, up to the Sum Insured for each item at each location and subject to the deductibles, conditions and exclusions of this policy.

2. Reinstatement Value Definition. Reinstatement Value means the cost of replacing or restoring the insured property with new property of the same kind and capacity, without deduction for depreciation, including freight, customs duty, erection charges, architect and engineer fees and any taxes that are not recoverable. Where the Sum Insured is on a reinstatement value basis, the Insurer pays the cost of actual reinstatement but only once the property has been reinstated or replaced; until then it pays on the basis of the market value of the property immediately before the loss.

3. Standard Fire and Allied Perils Coverage Grid. Only perils marked Yes are insured; optional extensions are insured only when specifically opted for and endorsed on the Schedule.

Peril	Covered	Basis / Limit
Fire, lightning, explosion and implosion	Yes	Up to the sum insured per location
Aircraft damage, impact damage by vehicles or animals	Yes	Up to the sum insured per location
Riot, strike, malicious damage	Yes	Up to the sum insured per location
Storm, cyclone, typhoon, tempest, flood and inundation (STFI)	Yes	Deductible 5% of claim, minimum INR 50,000
Subsidence, landslide including rockslide	Yes	Excludes settlement of foundations unless caused by an insured peril
Bursting or overflowing of water tanks, apparatus and pipes; sprinkler leakage	Yes	Up to the sum insured per location
Bush fire and missile testing operations	Yes	Up to the sum insured per location
Earthquake (fire and shock)	Optional add-on	Not opted in this policy period
Terrorism	Optional add-on	Not opted in this policy period

4. Basis of Sum Insured and Under-Insurance. If at the time of loss the Sum Insured on any item is less than the value of that item at the same location (the Condition of Average), the Insurer pays only the proportion that the Sum Insured bears to the value at risk. The Policyholder shall review and declare values at least once in each Period of Insurance.

5. Role of AuraVance as Corporate Agent. AuraVance Digital FinTech Private Limited solicits and services this policy as an IRDAI-registered Corporate Agent. It does not underwrite the risk, decide a claim or hold premium: premium is paid directly to the Insurer through the Insurer's payment channel, and no cover subsists until the Insurer receives it (Section 64VB). AuraVance is paid a commission by the Insurer within IRDAI limits, which is included in the premium and not charged separately. Cover runs for twelve months and the Insurer sends a renewal notice at least thirty days before expiry.

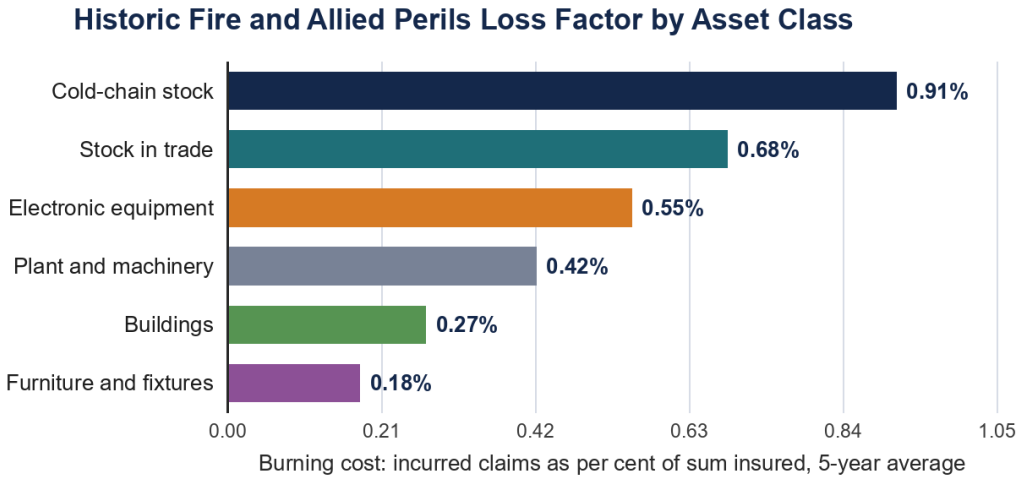

Part C. High-Density Policy Schedule Matrix

Table 1. Policy Schedule with deductibles, risk exposure indices, other-insurance apportionment (deduplication of overlapping cover at the same location so that no loss is paid twice) and liability caps across the commercial asset locations. Liability Cap equals Sum Insured multiplied by Our Share. Net Premium equals Liability Cap multiplied by the rate per mille divided by one thousand. All amounts are in Indian Rupees (INR).

Loc.	Insured Location	Asset Class	Sum Insured (INR)	Valuation Basis	Deductible	Risk Index (0-100)	Our Share (%)	Liability Cap, this policy (INR)	Rate (per mille)	Net Premium (INR)
L1	Pune Manufacturing Plant, Chakan	Building and civil works	18,50,00,000	Reinstatement value	5% of claim, min INR 50,000	62	100	18,50,00,000	0.62	1,14,700.00
L1	Pune Manufacturing Plant, Chakan	Plant and machinery	42,00,00,000	Reinstatement value	5% of claim, min INR 1,00,000	66	100	42,00,00,000	0.71	2,98,200.00
L2	Ahmedabad Distribution Warehouse	Stock in trade	26,00,00,000	Cost or market value, whichever is lower	5% of claim, min INR 1,00,000	74	70	18,20,00,000	0.88	1,60,160.00
L3	Nagpur Cold Storage Unit	Building	9,40,00,000	Reinstatement value	5% of claim, min INR 50,000	58	100	9,40,00,000	0.55	51,700.00
L3	Nagpur Cold Storage Unit	Stock (temperature controlled)	14,60,00,000	Cost or market value, whichever is lower	7.5% of claim, min INR 1,50,000	81	100	14,60,00,000	1.12	1,63,520.00
L4	Coimbatore Regional Office	Building, furniture and fixtures	6,20,00,000	Reinstatement value	5% of claim, min INR 25,000	41	100	6,20,00,000	0.38	23,560.00
Total			1,16,70,00,000					1,08,90,00,000	-	8,11,840.00
	GST at 18%								-	1,46,131.20
	Total premium payable including GST								-	9,57,971.20

Notes to Table 1. Our Share below 100 per cent at Location L2 reflects an other-insurance arrangement under which a second insurer covers 30 per cent of the stock at the Ahmedabad Distribution Warehouse; in the event of loss the two insurers contribute rateably and the Policyholder cannot recover more than the actual loss in total. The Risk Index is the Insurer's internal underwriting index from 0 (lowest) to 100 (highest), combining construction class, occupancy hazard, fire protection, flood and seismic zone.

Figure 1. Horizontal bar chart: historic loss factors (burning cost, per cent of sum insured, five-year average) across asset classes. The cold-chain stock class shows the highest loss factor (0.91 per cent) and furniture and fixtures the lowest (0.18 per cent). The chart supports the rate per mille chosen for each asset class in Table 1.

Sample underwriting data for illustration; replace with the insurer's actual portfolio experience.

Figure 1 caption: Historic insurance risk loss factors by asset class (sample data).

Part D. Claims Conditions, Service Commitments, Grievance Redressal and Sign-Off

6. Notice of Loss and Claims Procedure. On any loss or damage the Policyholder shall (a) notify the Insurer immediately, in writing, by email or through the claims helpline, and the police in case of theft, riot or malicious damage; (b) take all reasonable steps to minimise loss; (c) preserve the damaged property for survey; and (d) submit a claim form with the documents required, including a fire brigade report where applicable, stock and fixed asset registers, invoices and a statement of loss.

7. Turnaround Time (TAT) for Claims. The Insurer decides and pays the claim; AuraVance supports the Policyholder at each stage. The table sets the regulatory and Insurer standard against AuraVance's servicing commitments. Where a claim requires investigation, the investigation is completed within 30 days and settlement made within 45 days from receipt of the last document.

Claim Stage	Regulatory and Insurer Standard (Himavat General Insurance Company Limited)	AuraVance Servicing Commitment
Claim intimation	Policyholder notifies the Insurer immediately	AuraVance registers the claim with the Insurer within 2 hours of your call or platform request, 24x7
Surveyor appointment	Insurer appoints a licensed surveyor within 24 hours of notice where a survey is required	AuraVance follows up with the Insurer at 12 hours and shares the surveyor's contact with you
Survey report	Within 30 days of appointment, extendable by 15 days with reasons (Section 64UM)	Status update to you every 7 days
Settlement	Insurer settles within 30 days of the survey report or last necessary document	AuraVance escalates to the Insurer's Grievance Redressal Officer if payment is not made by day 20
Interest on delay	2 per cent above the bank rate, payable by the Insurer	Reminds the Insurer to include it with the payment; no charge to you

8. Exclusions. No cover for war, invasion or nuclear risks; wilful act or gross negligence of the Policyholder; pollution or contamination unless caused by an insured peril; property in transit; consequential loss or loss of profit (available only under a separate business interruption cover); and loss of stock caused by change in temperature unless the cause is an insured peril.

9. Subrogation, Contribution, Fraud and Cancellation. On payment of a claim the Insurer is subrogated to the Policyholder's rights against any third party. Where the same property is covered by other insurance, the Insurer is liable only for its rateable proportion, as reflected in the Our Share column. A fraudulent claim or false declaration forfeits the claim and the policy is void at the Insurer's option under the Insurance Act, 1938. The Policyholder may cancel on fifteen days' written notice with a pro-rata or short-period refund if no claim has been made; the Insurer may cancel on seven days' notice for non-disclosure, fraud or non-payment.

IRDAI Grievance Redressal Provisions and Escalation Matrix

Level	Who to contact	How to reach	Resolution timeline
Level 1	AuraVance Insurance Service Desk	1800 000 3300 (24x7); care@auravance.aura	Acknowledged within 3 days; resolved within 14 days (IRDAI standard)
Level 2	AuraVance Grievance Officer: Neha Prakash Walia	grievance@auravance.aura; AuraVance Tower, Bandra Kurla Complex, Mumbai, Maharashtra 400051	Resolved within 10 working days of escalation
Level 3	Grievance Redressal Officer of the Insurer (Himavat General Insurance Company Limited)	Contact details in the policy schedule and on the Insurer's website	Acknowledged within 3 days; resolved within 14 days
Level 4	IRDAI Integrated Grievance Management System (Bima Bharosa)	Register online through the IRDAI portal; the Insurer must respond within the regulatory timelines	If unresolved after Level 3 or unsatisfactory
Level 5	Insurance Ombudsman of the territorial jurisdiction; Consumer Commission	Under the Insurance Ombudsman Rules, 2017, if the complaint was rejected or unanswered for 30 days; or the Consumer Disputes Redressal Commission under the Consumer Protection Act, 2019	As per the Rules and the Act
